

5DME Airfield Parking Policy

Adelaide Airport

1. 5DME have parking arrangements in place with AAL. Due to the odd places we park.
2. These arrangements have provisos and certain conditions must be met.
3. Level 3 must be notified when we are landside, taking photos. Also when we leave. This is to be arranged via the 5DME Team Leader.
4. Signage must be displayed either on dashboard or on car. Our magnetic sign are satisfactory.
5. If in parking positions not defined by a parking space, cones must be placed around the vehicle for safety.
6. Personnel are not to leave the area and must remain within the vicinity of the vehicle at all times.
7. Even though we have certain liberties, our policy is, if we are asked to move, we do. Any issues can be taken up via the Team Leader who will then contact AAL.

Other Airfields

1. As no formal arrangements have been made with other aerodromes, we defer to their requirements on a visit-by-visit basis.
2. All instructions from the airfield operation are to be followed.
3. Any issues to be referred to the 5DME Team Leader.
